

The Power of Choice: Select the promotions that best meet your needs.

Synchrony® now offers dealers the option to easily customize your promotional offerings, if you choose.

What does the power of choice mean for you?

- Rather than receiving a set promotion menu, you have the ability to choose options for your customers and your business based on your average project size, product offerings, etc.
- The ability to customize each promotion by a date range, dollar amount or product type allows you to manage overall costs.
- The 6 Month Deferred Interest with Payment promotion is required for all merchants and is a great choice for smaller jobs and service work.
- A new universal paper sales slip is now available and form changes are no longer required when you choose new promotions!
- You have greater flexibility to change promotions to leverage manufacturer-sponsored promotions.

What to consider as you choose your promotions:

- What promotions are you featuring today?
- What is your average sale?
- What is your competition offering?
- Are you running any specials?
- Are you featuring any specific services or products?

Remember, different customers may be interested in different promotions. Make sure to include a variety when choosing your promotions.

SUGGESTED PROMOTIONAL OPTIONS

★ Most Popular Promotions

Why?

- Attractive promotional options for all customer types: cash management, upgrades and budgeting.
- Deferred and Equal Pay promotions allow cash managers to hang on to their money.
- Payment options that appeal to budgeters and allow customers to upgrade.

*Typically used for higher-priced products or projects.
